

SUMMARY

Final-year Information Technology student at Thuyloi University (HCMC) seeking a Full-stack / Frontend Software Engineer Internship. Possesses hands-on experience developing full-stack web applications with React 19, Three.js, Node.js, and Python FastAPI. Proficient in real-time AI streaming, 3D web rendering, database architecture, and cutting-edge AI-assisted engineering workflows (Google Antigravity, Claude Code, OpenAI Codex, Cursor). Certified English proficiency at CEFR B1 level.

EDUCATION

Thuyloi University

Bachelor of Science in Information Technology – 4th Year (Expected Graduation: 2027)

• **English Proficiency:** Certified CEFR B1 Standard (University Exit Benchmark)

Ho Chi Minh City, Vietnam

2023 – Present

PROJECTS

AI-Powered English Learning Platform

Full-stack Developer | Personal Project

github.com/DangAnhTuong/ai-english-learning-platform

Jan. 2026 – Present

- **Tech Stack:** React 19, Node.js (Express), Python (FastAPI), MongoDB, Redis, WebSockets, Docker, Nginx.
- **Microservices Architecture:** Designed a decoupled backend system combining Node.js for business logic/auth and Python FastAPI for real-time AI speech processing.
- **Real-time Voice Streaming:** Integrated Deepgram STT and OpenAI API via WebSockets for instant speech recognition, low-latency audio feedback (<1.5s), and automated pronunciation scoring.
- **Authentication & Security:** Implemented JWT authentication with refresh token flow, Google OAuth2, and Role-Based Access Control (RBAC) across learner and admin portals.
- **DevOps & Infrastructure:** Containerized application stack using Docker Compose and Nginx Reverse Proxy on Linux VPS; configured zero-cache HTTP headers for SPA static bundle delivery.

Tuong Hotel – 3D Showcase & Reservation System

Frontend Developer | Personal Project

github.com/DangAnhTuong/tuong-hotel

June 2025 – Aug. 2025

- **Tech Stack:** React 19, Three.js (@react-three/fiber), Ant Design 5, HTML5, CSS3, i18next, Netlify.
- **3D Graphics & UI Design:** Built an interactive luxury hotel website featuring 3D graphics rendering with Three.js, room showcases, dining menus, and tour booking flows.
- **Multi-language Integration:** Integrated Ant Design 5 UI components, custom keyframe animations, and i18next for seamless bilingual (English/Vietnamese) support for international guests.
- **Performance & Deployment:** Optimized 3D model assets and geometry loading to maintain smooth 60 FPS rendering; deployed production build to Netlify with continuous deployment pipelines.

TECHNICAL SKILLS & COMPETENCIES

Frontend: React 19, Next.js, Three.js (@react-three/fiber), JavaScript (ES6+), HTML5, CSS3, Ant Design, Bootstrap 5
Backend: Node.js (Express), Python (FastAPI), RESTful APIs, WebSockets, MongoDB
Programming Languages: JavaScript, Python, C++, Java
Database & Storage: MongoDB, PostgreSQL, MySQL, Redis
AI & Agentic Tools: Google Antigravity, Claude Code, OpenAI Codex, Cursor IDE, Prompt Engineering
DevOps & Cloud: Docker, Docker Compose, Nginx Reverse Proxy, Linux VPS, Git, GitHub, Vercel, Netlify
Foreign Languages: English (CEFR B1 Certified), Vietnamese (Native)
